Quick Reference Guide: Using Internet Explorer with eData

Instructions: Use the following steps to enable your browser to trust content from eData. These steps will help you to configure Internet Explorer (IE) 10 to log into eData through the local intranet.

Note: Please be sure to update your IE web browser. These instructions are designed to help with the latest versions of IE (9 and 10). Other browsers are not affected and can be used instead of IE.

1. Open Internet Explorer (IE).
2. Click the Tools icon (if you don’t see Tools, press the ALT key).
3. Click Compatibility View Settings.
4. Add iastate.edu to the listed websites or check Display all websites in Compatibility View.
5. Click Close.
